

OTOÑAL

WHITE 2018
DOCa Rioja

VINEGROWING

Viura 100% from Rioja Alta and Baja.

WINEMAKING

Made from selected Viura grapes. Small clusters in perfect health picked from old low-yielding vines, usually grown in unirrigated soil. Prior to the extraction of the must, the grapes undergo maceration in stainless steel vats to increase the aromatic expression in the wine. Fermentation takes place at controlled temperatures of 17°C to 19°C.

TASTING NOTES

Pale, bright colour. Soft, very open aromas recalling white-fleshed fruit and hints of citrus. In the mouth, this wine is light and crisp, with a long finish which brings back all its virtues.
